

OSIS

Apotheosis Investments Global, Inc. | Est. 2017

WHAT is OS/S?

OSIS is a **utility token** & the first platform that's applying **Tokenization** to everything it's doing, at a mass scale.

Abstract

A Universal Value System of all Public Brands, Business, and Interconnected Services, would be a Decentralized standard globally. All parties interested in participating, or creating their own projects, would now be able to do so easily through tokenization, & with no need of a middleman controlling their process.

The socioeconomic benefits, typically exclusive to large private firms & the upper class, would be garnered by the entire world's citizens now. OSIS will make this possible, for less than a fraction of the cost & time.

OSIS embodies the Strength in Numbers ideology.

What *is* **Tokenization**?

Tokenization is the splitting of anything physical or digital, into ownable assets (tokens) on the blockchain.

Real Estate
Building

Tokenized into
10 Million tokens,
or digital assets

**1 Million people buy
10 tokens each at \$10
per token = \$100M
Valuation**

Other Trillion \$ Markets We Can Tokenize

Any Brand, Business,
or Creator

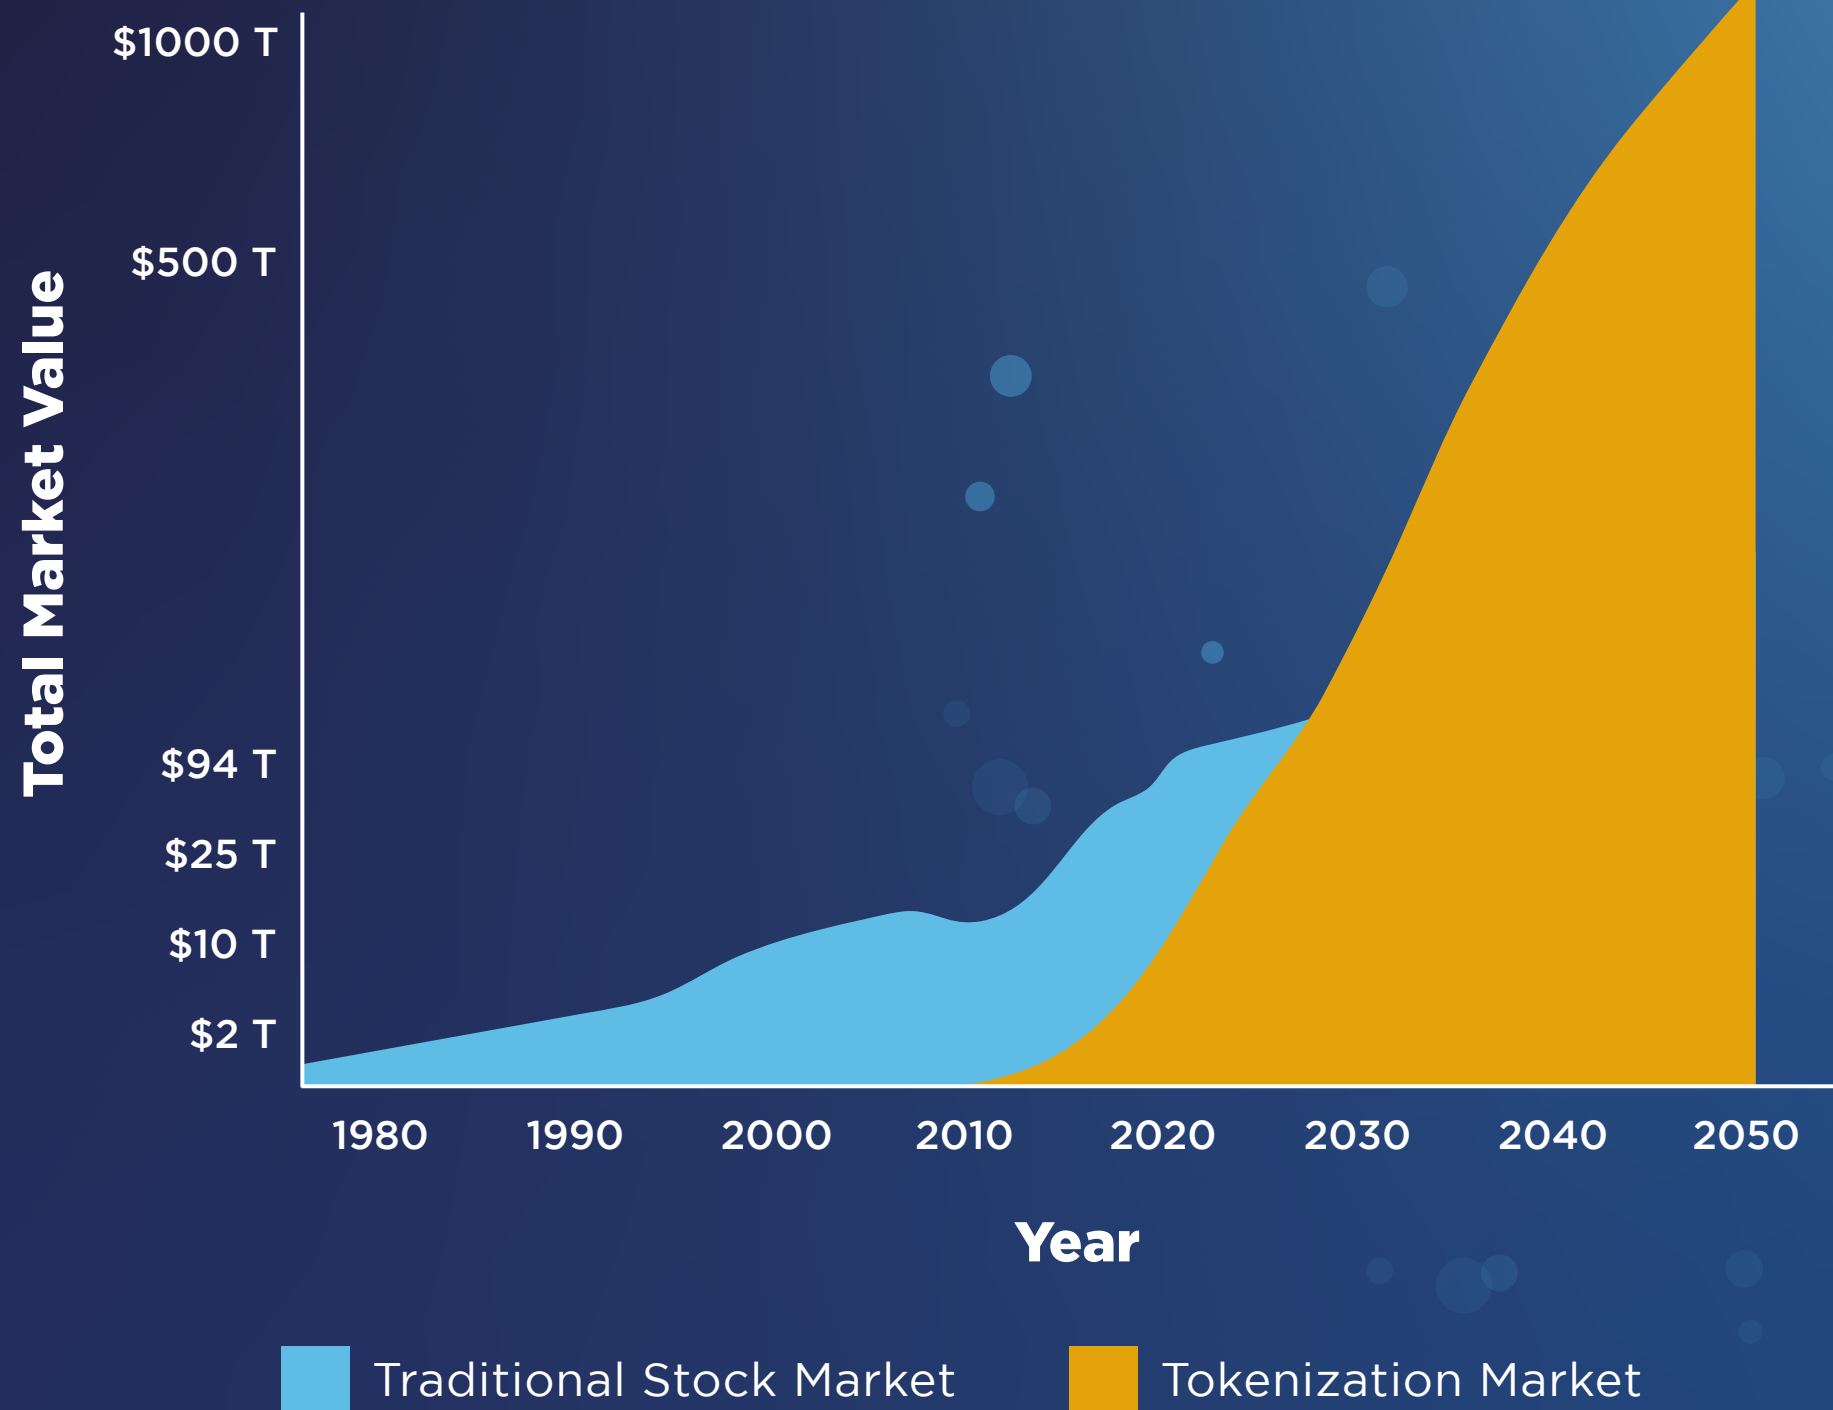

Fine Art
Real & NFTs

Entertainment
Music, Film & more

Tokenization *is* already here

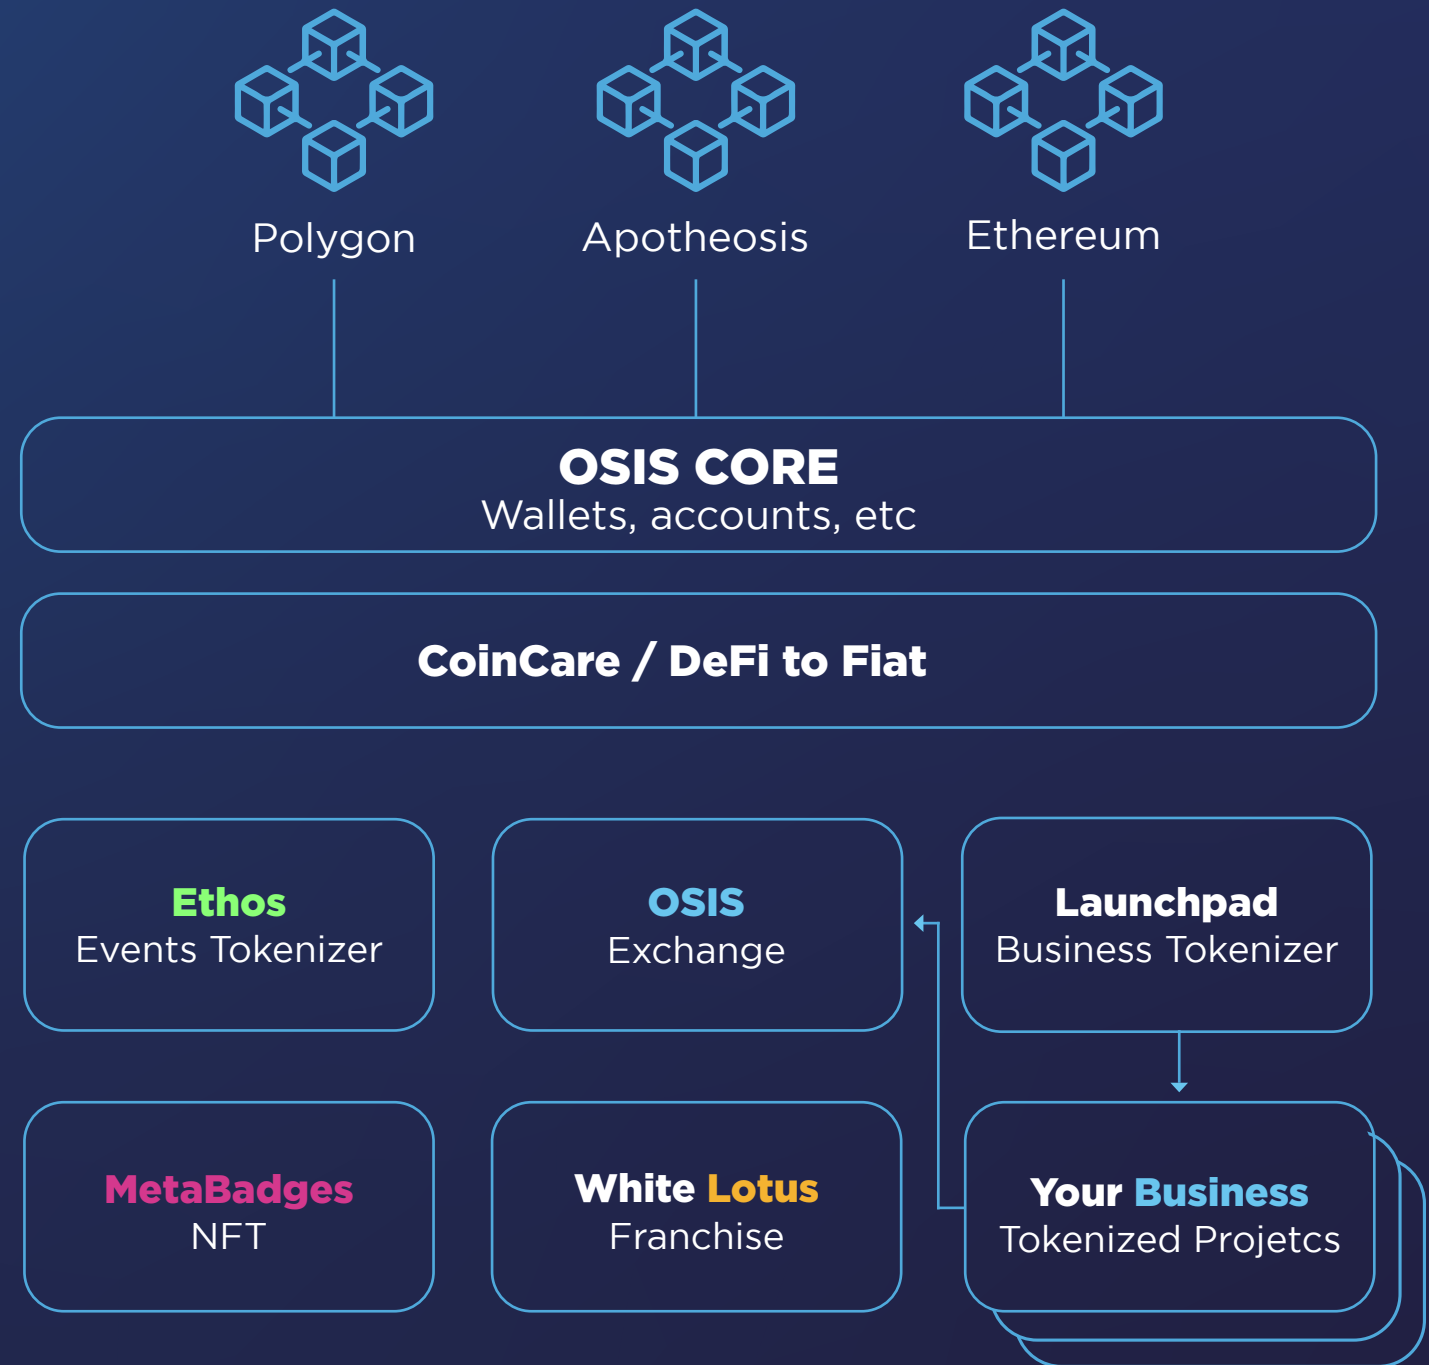

The Tokenization Market is projected to be greater than \$544 Trillion in less than 2 decades. We believe a tokenized world will be worth much more.

BLUEPRINT

OSIS *Blueprint*

Businesses will easily build on the OSIS Core infrastructure/ecosystem. People will soon be seamlessly transacting between Fiat to Digital Currencies to buy products & services with CoinCare.

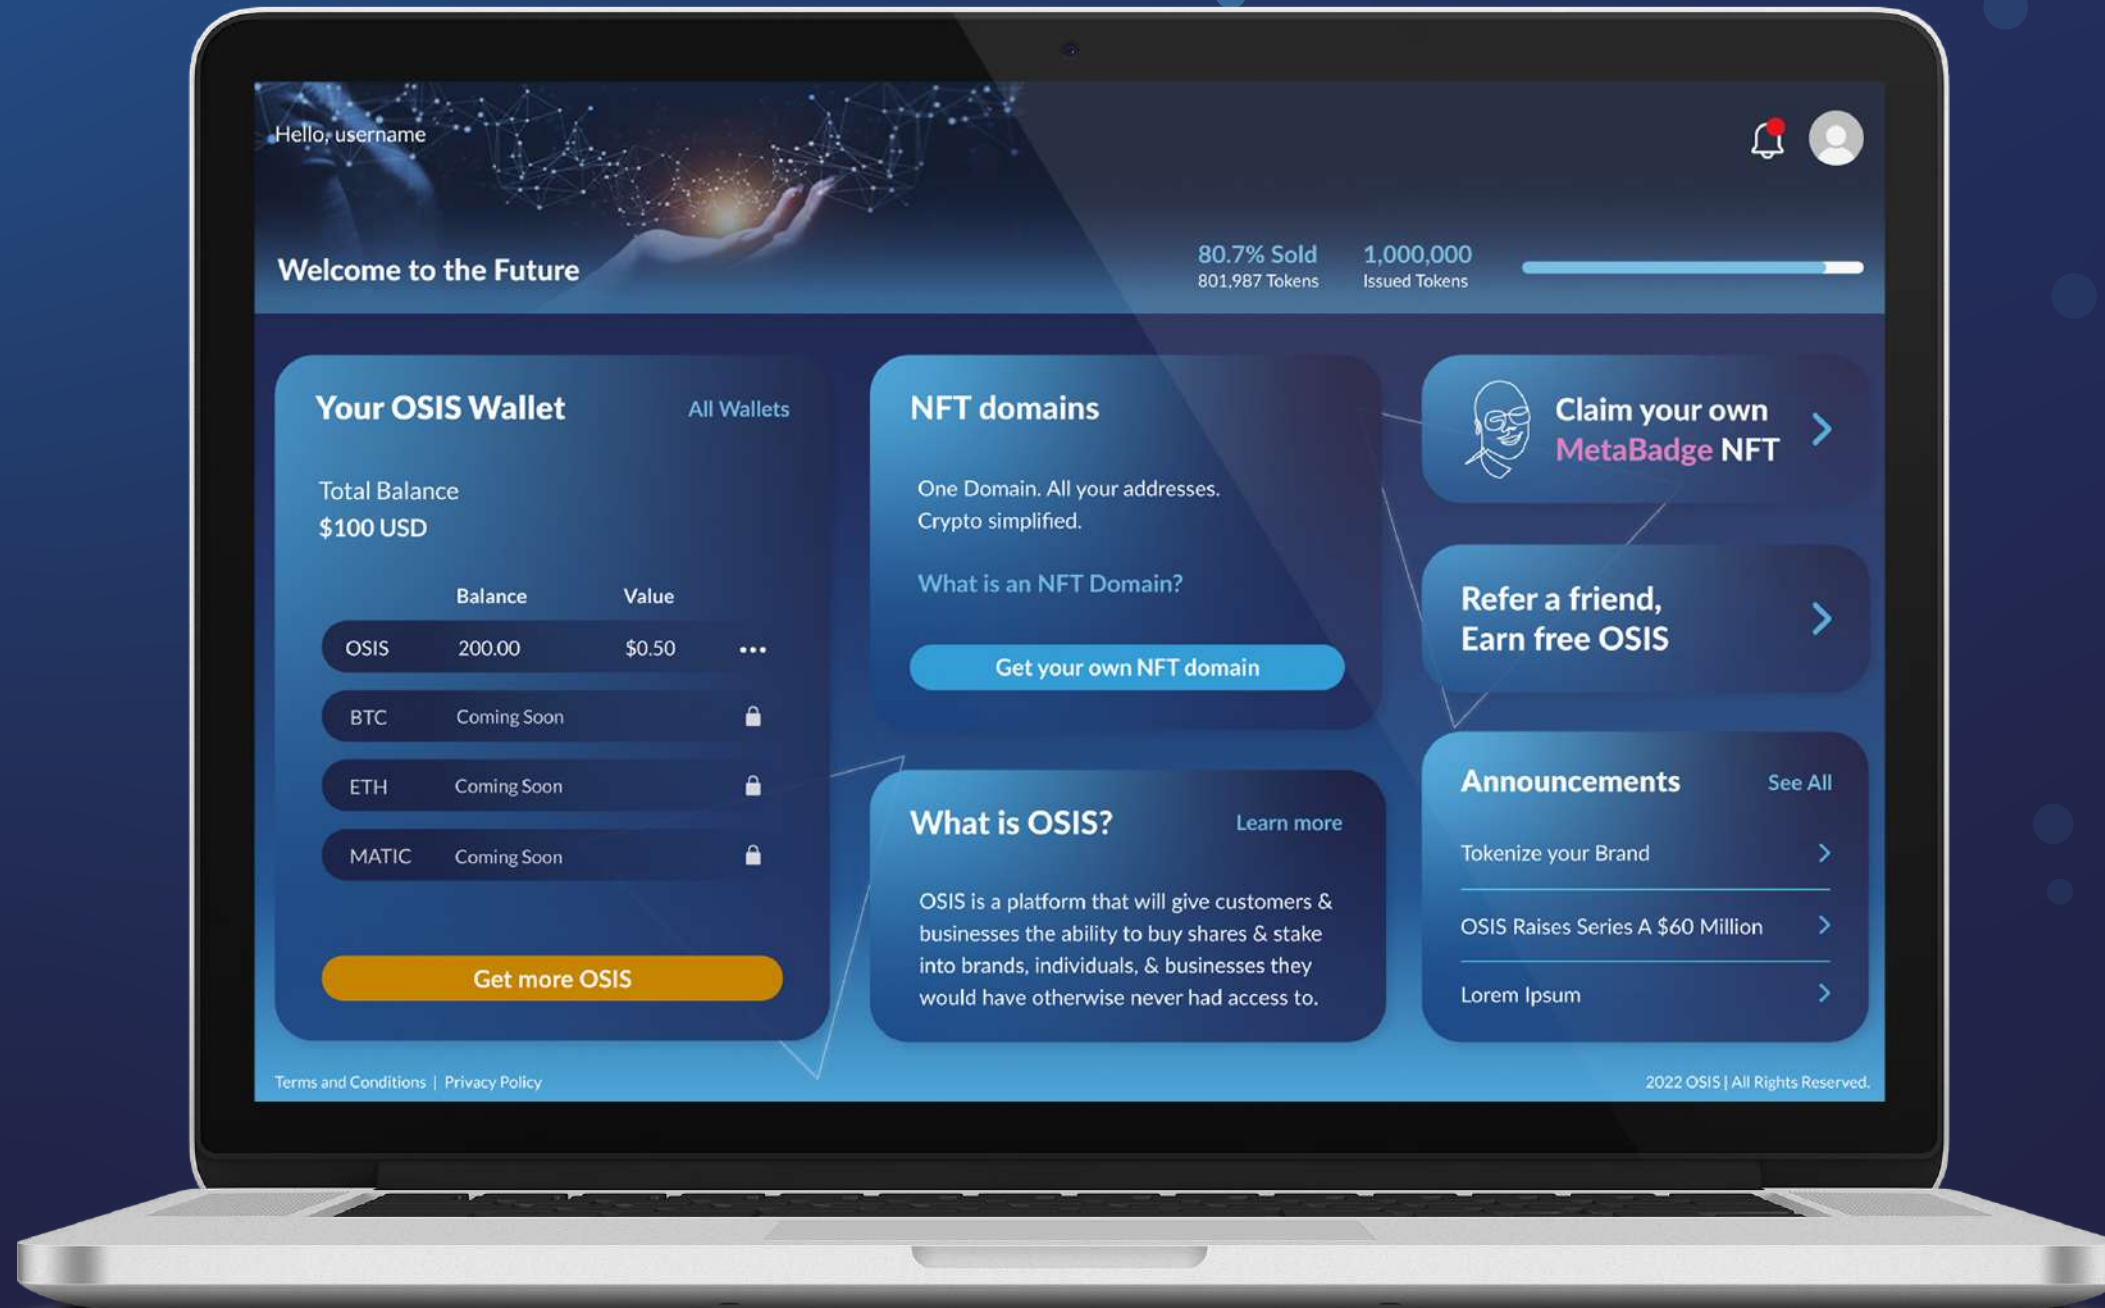

OSIS Core

Provides fundamental tools to users & business to **access and interact on the blockchain. Businesses can tokenize & build on top of the OSIS Core API.**

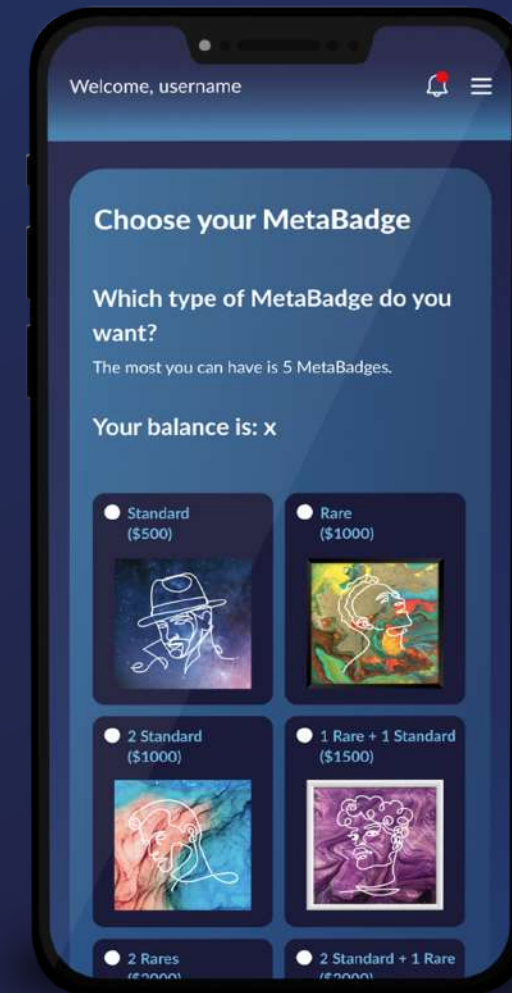

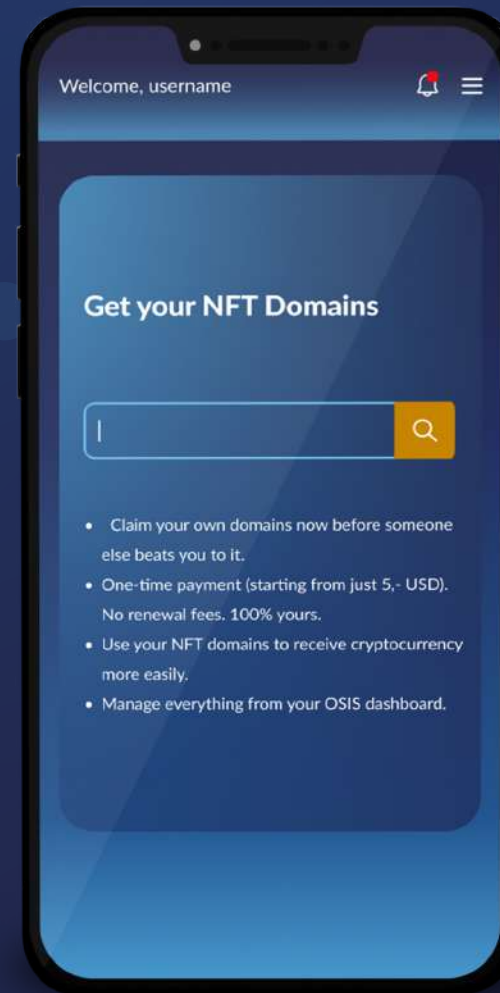

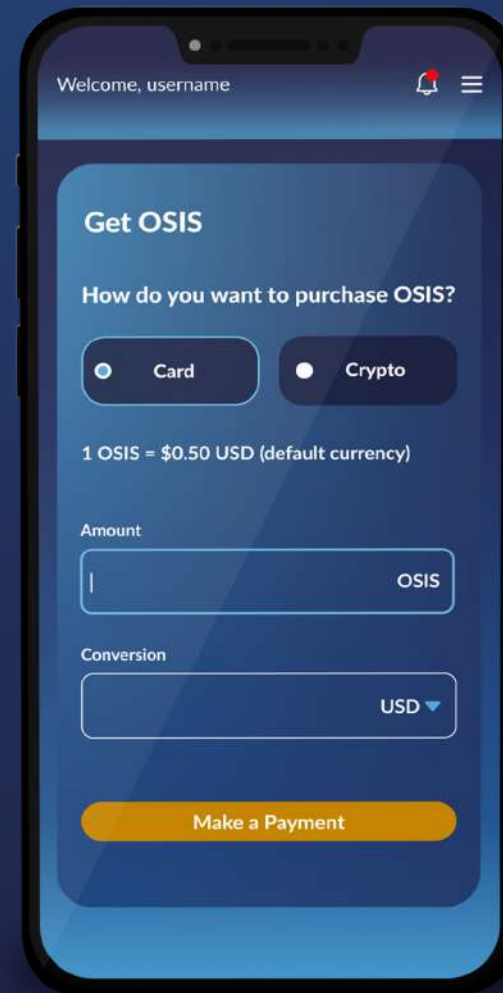

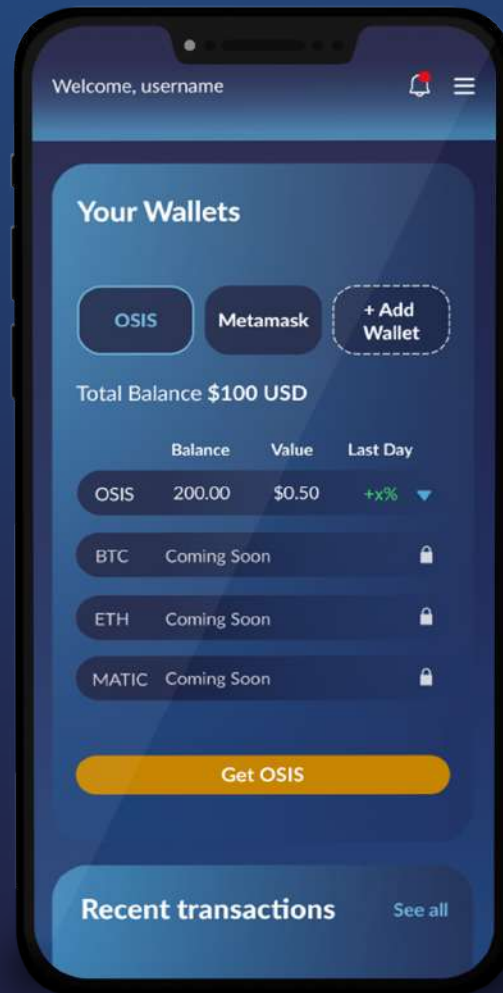

Instead of 0x4af5.. users will have multi-wallet domains like yourname.x, replacing all need for traditional hex addresses.

OSIS Launchpad / Exchange: Members can tokenize their business in the form of NFTs or tokens. Qualified projects with a proven track record will be able to launch on the OSIS Exchange.

OSIS *Financial Projections*

NFT Launches & Royalties

OSIS earns with its annual NFT Collection releases. After a project sells out, such as MetaBadges, OSIS earns a 10% royalty with every sale on OpenSea.

Tokenization

OSIS receives a small fee with each time a member uses its Tokenization features, in both the OSIS Launchpad & OSIS Core.

Market Trading Fees

OSIS will get a small & standard marketplace fee (under 1%) for every transaction on the platform. The OSIS token will be used to pay transaction fees on each transaction, similar to BNB on its platform.

OSIS *Financial Projections*

NFT Domains

In partnership with Unstoppable Domains, OSIS receives a 30% revenue share on all NFT Domains sold in OSIS Core. NFT domains simplify the web3 experience; allowing you to receive hundreds of digital currencies to a single, human readable domain, unique to each user.

User Count

User count growth is directly correlated with both OSIS features/platform releases, & Ethos. The ArchAngel program (OSIS ambassadors) contributes by introducing at least 2 new members each month.

OSIS *Financial Projections*

OSIS

K = Thousands M = Millions

Revenue Streams	2022	2023	2024	2025	2026
MetaBadges & NFTs	7.8M	21M	35M	75M	125M
Tokenization	500K	5M	25M	50M	75M
Marketplace Fees	1.5M	7M	58M	145M	360M
NFT Domains	600K	3M	6M	18M	36M
User Count	82K	321K	768K	2.23M	5.8M
Total Revenues	10.43M	36.3M	124.8M	290.2M	601.3M

CoinCare *Financial Projections*

CoinCare Group is a sister company of OSIS, owned by the same founders. At the height of the pandemic, the US issued \$1 Trillion in aid for small businesses across the country. CoinCare generated \$50+ Million in funding, for 2,500+ small businesses, in just under 6 months. Now, CoinCare plans to offer traditional banking services, & Crypto Debit Cards, to an even larger community.

Interchange Fees

With MasterCard & Visa, CoinCare will earn a 1.5% transactions fee from all purchases, online & physical.

Annual Card Fees

Members who opt for a premium card with more benefits & rewards, will pay an annual fee of \$199.99 USD. OSIS estimates that 1/5 of all CoinCare customers, will get a premium card.

User Count

CoinCare customer count is directly related to OSIS & Ethos' user-base. Active, paying customers on these platforms will be offered the CoinCare card, lowering the acquisition cost of a new user.

CoinCare *Financial Projections*

COINCARE - CRYPTO NEO-BANK

K = Thousands M = Millions

Revenue Streams	2022	2023	2024	2025	2026
Annual Card Fees	0	1.194M	3.98M	39.8M	119.4M
Interchange Fees	0	9.2M	29.6M	296.1M	1.35B
User Count	0	30K	100K	1M	3M
Total Revenues	0	10.39M	33.6M	336M	1.47B

Ethos *Financial Projections*

Ethos is another sister company to OSIS, in the Apotheosis conglomerate. It is the First Web3 & events social media, focused on data & content ownership through blockchain. Ethos is what some like to call the “Airbnb for Event hosting”, and the “Find Things to Do” mobile app.

Revenue Streams

Ethos’ revenue streams revolve around the exciting events industry - an online experience that takes you offline & into real world interactions. Events can range from business to entertainment, gaming to sports, and everything in between. Members can earn themselves money by hosting events & enjoy various features to make their experience a memorable one; including NFT tickets.

Ethos *Financial Projections*

ETHOS - FIRST WEB3 TICKETING PLATFORM K = Thousands M = Millions

Grand Total	4.08M	42.83M	107.09M	251.67M	546.34M

OSIS Reviews

“Amazing!!!! Since I’ve been on board my outlook on this movement has changed a lot. Having the ability to invest in the little man everywhere in the world or your favorite music artist is a game changer. This opens doors for everyone.”

Clinton Frutiger, Investor & Ex-Air Force.
